Gentlemen:-

I am writing to ask you for permission to reproduce, for illustration, certain figures of seal cylinders which are given in W. H. Ward's "The Seal Cylinders of Western Asia." There probably are about six in all of the figures which we should like to copy. Would it be possible for us to borrow electrotypes of these and if so, we can indicate which cuts we want? If the electrotypes can not be supplied we can easily make line reproductions from the cuts in the book.

These illustrations are to be used in the forthcoming number of the American Journal of Numismatics, and due credit will be given.

Very truly yours,

Curator.
